Profile Summary

- Diligent Software Developer with overall 2.6 years of experience in application Development, improving software performance, testing and maintaining existing software in domains such as healthcare, retail and logistics using Java and Spring Boot.
- Well versed with Core Java, Collection Framework, Multithreading, OOPS Concepts, Hibernate, Spring Boot, Restful Webservices, Microservices.
- Strong database skills in SQL and MySQL.
- Development knowledge with Agile methodology.
- Testing Knowledge with Junit and Mockito.
- Well versed with quality management of code using SonarQube.
- An effective communicator, quick learner with analytical ability.

Technical Skills

Category	Technologies
Programming Languages	Java V1.8, SQL, TypeScript
Database	MySQL V8.0, Oracle
Web Technologies	HTML, CSS, JavaScript
Framework	Spring, Spring Boot, Hibernate, Spring Web, Spring data JPA, Spring Security, Spring Cloud (Eureka Server, Gateway), Logger Using Slf4J and Logback, Feign, Rest Template, Resilience4J (Circuit Breaker, Retry Module, Rate Limiter), Apache Kafka, Angular, Junit and Mockito
Application Architecture	Monolithic, Microservices
Tools	Eclipse, Spring Tool Suit, Workbench, Heidi SQL, Postman, Swagger, Apache JMeter, Microsoft Office (Word, Excel, PowerPoint)
Repository	Git, GitHub, Gitlab
Servers	Apache Tomcat V8.0
Operating Systems	Windows
Code Quality Management Tool	SonarQube
Application Development Environment	CI/CD Pipeline
Application Deployment Tools	Docker and Kubernetes

Professional Experience

NEWFOUND INFO TECH PRIVATE LIMITED   **[Mar 2021 – Present]**
Software Engineer

Project #1: "NCAP, NHS" Web Application Management   **Duration: Jan-2022 to Present**
